

Continuing a Great Tradition:

Brophy Elementary School and Springboard

"What I value most is the [Springboard] staff's efforts to be part of our community; they have worked with our teachers, support staff and administrators to align their program with our school's areas of focus and to support the work being done in our classrooms."

-Frank Rothwell, Principal,
Brophy Elementary School

Springboard:

Customizes our programs to support each school's mission and vision and the community.

Collaborates with each school to reinforce academic and behavioral objectives.

Employs certified teachers to ensure we realize these goals.

Customized Partnership Drives Academic Achievement

Framingham Public Schools, an urban school district in Framingham, Massachusetts, can trace its educational roots to the early 1700s. With a long history of recognizing the value of quality educational experiences, Framingham chose Springboard in fall 2014 to deliver its extended-day program at Brophy Elementary School. Currently serving over 45 children, Springboard's certified teachers guide children's homework completion and comprehension in partnership with Brophy school-day teachers, build interest in books and reading, help evolve social-emotional skills and deliver an award-winning physical education program directly linked to academic benefits. At Framingham, our vital and productive relationship with Principal Frank Rothwell and Parent Committee members includes support for multiple school events, such as International Food Night and the Brophy Elementary Science Fair and Talent Show.
